1.  Comment. Possibly, troop shipments. 25X1
2.  Comment. The first report from the Halle regional railroad district according to which a total of 604 carloads of military goods were loaded by order of the Soviets in June 1952. It was then assumed that the list of shipments was incomplete. The present report which lists 1,876 carloads as handled in September 1952 is given more credence. The fuel shipments from Boehlen and Grosskorbeta, two plants which chiefly supply Soviet units in East Germany, are of special interest. The 961 cars carried an estimated 20,000 to 25,000 cubic meters of fuel. However, this quantity is believed to have not only been for units in East Germany. 25X1

4. [redacted] Comment. Tolokolnikov (fmu) was mentioned in August 1952 as officer in the clothing depot at Bernau. Zoldatov (fmu) belongs to an air force unit at Brand airfield. Lieutenant Colonel Shubin (fmu) is supply officer with the 26th Gds Mecz Regt in Fuerstenwalde. He was last mentioned in May 1952. One Major Larin (fmu) was repeatedly mentioned in Erfurt in the spring of 1952 as supply officer in connection with food ration supply shipments. It is possible that Larin was transferred to Chemnitz. The other officers are reported for the first time; they are presumably supply officers.
